

## RMX-2xx 2-SLOT 1U INDUSTRIAL MODEM RACK for Sunrise & Telenetics Products

### KEY FEATURES

- SCADA environment applications
- Point-to-point or multi-drop applications
- Fits any standard 19" electronics rack
- Supports Raymar-Telenetics' broad family of Rack Mount communication cards
- Supports up to 2 Rack Mount Cards

### SUPERIOR VALUE

The **Raymar-Telenetics** RMX-2xx Industrial modem rack offers superior value over a wide range of SCADA, point-to-point, and multi-drop applications. RMX-2xx rack feature modular, AC/DC power, multiple backplane configurations. The **Raymar-Telenetics** RMX-2xx supports the V.3600 modem series, MR64 CSU/DSU, all FT100 CSU/DSU, and **Raymar-Telenetics** DSP9612 and MOT202T modems.

*(Plus many other legacy Motorola modems.)*

### PLUG-AND-PLAY INSTALLATION OPTIMIZES UPTIME

Snap-to-backplane segments permit an exact equipment match on a slot-by-slot basis. Each RM16M card has its own power supply so that problems with an individual device will not disable an entire shelf.

### PRODUCT SPECIFICATIONS

<b>EIA Standard:</b>	Compliant with EIA Standard EIA-310-C	<b>Width:</b>	19 inches (48.3 cm)
<b>AC Power:</b>	Input Voltage 90-265VAC 50/60 Hz	<b>DC Power:</b>	Low Input Voltage 24 - 53 VDC** High Input Voltage 90-265VDC**
<b>Environmental:</b>	Temperature -40°C to +85°C (-40°F to 185°F)		

### Order Information:

Part Number	Supports	Power
RMX-200	DSP9612, MOT202TRM, MR64 and ATL-6410RM	90-265VAC
RMX-201	V.3600	90-265VAC
RMX-202	FT100	90-265VAC
RMX-210	DSP9612, MOT202TRM, MR64 and ATL-6410RM	24-53VDC
RMX-210-R	Redundant 24-53VDC Power Supply	
RMX-211	V.3600	24-53VDC
RMX-212	FT100	24-53VDC
RMX-220	DSP9612, MOT202TRM, MR64 and ATL-6410RM	90-265VDC
RMX-220-R	Redunant 90-265VDC Power Supply	
RMX-221	V.3600	90-265VDC
RMX-222	FT100	90-265VDC

\*\*Available with Redundant Power, see Part Numbers with "-R" suffix.

Part #0100-1650-171  
Optional F/P, RJ45, 8 PIN,  
TERMINAL BLOCK  
ADAPTER
